CLIPPER
CORPORATE

**Workwear that
doesn't feel
like work!**

Corporate wear for every body

Clipper corporate was born out of passion for knitwear and quality. With a desire to create workwear and uniforms that felt and looked like the clothes that employees would choose themselves.

No two companies are the same, neither are their employees. That is why, it is important to provide individualized and tailor-made work wear solutions. So that everybody and every body can feel confident and comfortable when dressing for work - dressed to tackle any obstacles.

That is why corporate wear deserves the same attention to detail and quality as our everyday clothes.

Feeling strong, self-confident, and presentable brings out the best in people. Let your employees be at their best every day.

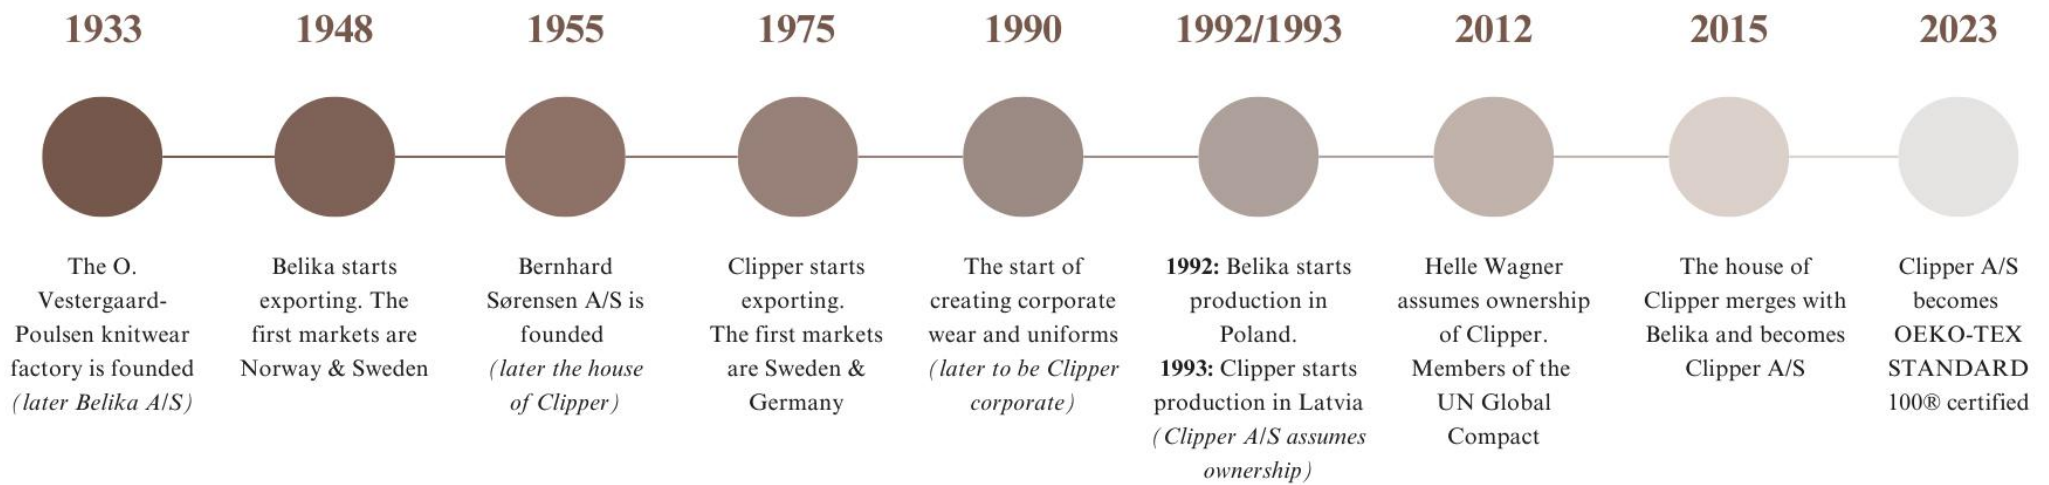

”

Clipper Corporate is where passion meets quality, empowering every individual to look and feel their best.

**Crafting the finest knitwear
with care, passion, and
90 years of expertise.**

Ethical sourcing is not an option - it is our only choice.

At our factory in Latvia the steam produced from production, are being reused at the next-door factory, making sure no resources go to waste.

Any real and lasting change starts within, which is why Corporate Social Responsibility (CSR) is an instrumental part of who we are, how we act and how we operate. That is non-negotiable. We wish to promote and be part of the solution for a more ethical and sustainable way of producing and consuming. Clipper A/S is committed to making an effort and paving the road ahead - in the hope of a better tomorrow.

Made in Europe - at our own factory

Most of our knitwear is produced at our own factory in Latvia. This provides us with full transparency at every stage of our supply chain, pertaining to areas such as e.g. labour practices, standards of safety, and raw material sourcing.

Making a difference by commitment

Which is why we operate in accordance with the 17 Global Goals with focus on education, responsible consumption and production, good health and well-being and decent work and economic growth.

Animal welfare and mulesing free

Since many of our products are manufactured from wool, one of our main focus points is the welfare of the sheep, which supply the wool. That's why we use mulesing free yarns as well as ethically sourced yarn.

Relations founded in our core values

Defined by our commitment to and membership of the Ten Principles of the UN Global Compact. The principle-based framework stating ten principles in the areas of human rights, labour, the environment and anti-corruption.

Mindful production is a given

We only work with suppliers committed to reducing the use of chemicals, water and dyestuff in all processes of manufacturing. All our yarn meets the OEKO-TEX STANDARD 100® for raw materials.

Code of conduct is our commitment

The way our suppliers do business is our responsibility and all must agree to and sign our Code of Conduct. As well as obeying by the REACH regulative. That is to prevent the use of hazardous chemicals and protect human health and the environment.

Create a professional look; your team stands out and stands together

Corporate wear

Styles with this symbol shows they are perfect for corporate wear such as retail personnel, beauty industry and office staff. Ideal for a presentable look and for those employees acting as the face of the company.

Workwear

Styles with this symbol shows they are perfect for workwear such as warehouse workers, craftsmen, bus-, train- and taxi drivers. Made to be practical, functional and very durable and can therefore withstand a lot of use.

Uniforms

Styles with this symbol shows they are perfect for uniforms with a more authoritarian connotation. Designed with epaulettes and signal value. Perfect for employees in the security, fire, rescue and authority sector.

”

It is possible to achieve a uniform look with respect for individuality. Let your personality shine through and embrace the diversity. Wear the feeling of confident.
